

VQV ApS.

Brandbuilder for TOP-wineproducers.

Powerfull VainQueur Vin ready for the future,

To secure VainQueur Vin the right conditions for the future growth, Knud Ankjaer has decided to strengthening the management of the company from the 01 of June 2011. This strengthening has been achieved by connecting Joachim Vangaard, who has a long strategic and practical experience of developing small and medium Danish companies.

Joachim will, through the work in the board, help to define and implementing the strategy of the company and secure an increased focus on the economic development. The daily responsibility and administration continue by Anne Ankjaer.

We have changed the name to VQV ApS. This is not because we feel sorry with the old one, but because a new name gives the signal of a new beginning – for us, but also for our customers.

VQV has now a better foundation for the future. With a clear strategy of increased focus on the costumer we hope, this will help to secure a continued growth in the company. Now Knud has better opportunities to focus on sale and service of keycustomers and the cooperation with existing and new suppliers.

It is our ambition to continue the current growth in cooperation with our customers and suppliers. Through increased growth, it is our strategy to employ clever salesmen who can secure continued high customer service.

We are looking very much forward to the new set-up will be a benefit to our customer, suppliers and us – a win win situation.

If you have any questions, don´t hesitate to contact me.

Knud Ankjaer, Founder, Man. Director
